## BIG DAMAGE VERDICT UPHELD

Court of Appeals Says Cincinnati Southern Must Pay \$12,500 to Emmett Goode of McKinney

After reversing the case on two separate appeals the Court of Appeals at Frankfort late this week affirmed the judgment of the Lincoln circuit court in awarding heavy damages to Emmett Goode, of McKinney, this county, against the Cincinnati, New Orleans & Texas Pacific railroad company. The amount of damages which Goode was awarded by a jury in court here at the last trial of the case was \$12,500, which is one of the heaviest damage judgments rendered here in many months. Goode, who is a son of Wm. R. Goode, a well known resident of McKinney, was employed by the railroad as brakeman a few years ago. While in the service of the road, switching at Ludlow, he had a heel torn off. Suit for damages was entered and twice before a jury awarded him damages, but each time the Court of Appeals reversed the verdict and sent the case back for a retrial. The sum of \$12,500 was awarded Goode on this last trial, and this the state's highest court upholds, so that all that is left now is for Goode to receipt for a check from the company. His attorneys are Robert Harding and Emmet Puryear, of Danville, and T. J. Hill, Jr., of Stanford.

## CALL COUNTY CONVENTION By Lincoln Democrats to Send Delegates to State Convention.

Pursuant to the call of the Democratic State committees, Chairman W. O. Walker, of the Lincoln County Democratic Committee, has issued a call for a mass convention to be held in the courthouse at Stanford on Saturday, May 20, at 1 o'clock p. m., for the purpose of selecting 19 delegates from this county to attend the state convention at Lexington, on May 24. At the state convention delegates will be instructed to vote for the renomination of President Woodrow Wilson for president at the national convention at Chicago. So far, but little interest seems to be taken in the matter, as it is improbable that any contests will develop before the convention. The official call as issued by Chairman Walker is as follows:

**Official Call.**  
In pursuance to a call of the State Central and Executive Committees of Kentucky the Democrats of Lincoln county are hereby called to meet in mass convention at the court house in Stanford, (in the Circuit Court room) Saturday, May 20, 1916, at 1 o'clock, p. m., for the purpose of selecting delegates to the State Convention to be held in Lexington May 24, 1916, to select delegates to the National convention which meets in St. Louis, June 14, 1916, to nominate a candidate for President. Lincoln county is entitled to 19 delegates or one for every one hundred votes or fraction over 50 cast by the democratic party at the last Presidential election. All known democrats 21 years old, or over and all those who will become 21 by the next regular November election are entitled to participate in this convention.  
Given under my hand as Chairman of the Lincoln County Democratic Executive Committee, this May 1, 1916. W. O. WALKER.

## BALL GAME AT McKINNEY.

One of the most interesting base ball games ever witnessed in McKinney, was played there Saturday afternoon when the McKinney team defeated the Moreland Sluggers by the score of 5 to 0. The feature of the game was the battery work of Dayton and Jones for McKinney. With the exception of two wild throws by the Morelanders the game was an errorless affair. Dayton, who twirled for McKinney had the visitors at his mercy at all times, and during the entire game never allowed a hit and struck out 15 batsmen in the seven innings that he worked. Jones behind the bat played a star game and deserves much credit for his excellent work.

## WAS TROUBLED AT NIGHT

Painful, annoying bladder weakness usually indicates kidney trouble. So do backache, rheumatism, sore, swollen or stiff muscles or joints. Such symptoms have been relieved by Foley Kidney Pills. Henry Rudolph, Carmi, Ill., writes: "Since taking Foley Kidney Pills I sleep all night without getting up. Sold everywhere."

## PART OF FACULTY RE-ELECTED Five Vacancies Yet to Be Filled—School Election Saturday.

At a meeting of the Stanford City School Board early this week, several of the faculty of the Stanford Graded and High School were re-elected for next year. Quite a number of the present faculty have not applied for re-election, and there are five vacancies yet to be filled. The board ratified and approved the contract with Supt. W. C. Wilson for another year, and re-elected the following teachers: Miss Annie McKinney, Mrs. H. D. Phillips, Miss Jennie Newland, Mrs. C. H. Campbell, Miss Sallie Burdett, and Miss Elizabeth Higgins. Teachers are yet to be supplied for the 5th, 6th and 8th grades and the high school. Saturday two trustees will be elected and the board appointed T. W. Pennington, clerk and T. J. Hill, Jr., judge to hold the election. The terms of W. B. McKinney and W. C. Shanks expire the latter having been named as a member of the board to fill the vacancy caused by the resignation of Dr. W. B. O'Bannon. So far as can be ascertained little interest is being taken in the election, and no contests are expected to develop.

## NEGRO KILLING IN GARRARD.

Aaron Bolar, colored, fired two shots from a pistol into the stomach of Curt Ambrose, colored Saturday night at White Oak, a negro settlement near Bryantsville, on the Buena Vista road, from the effects of which he died about twelve hours later, his intestines having been perforated thirteen times. Bolar at once made a get-away and has not as yet been apprehended. From reports gathered from some of the witnesses, the killing was unprovoked and cold blooded.—Lancaster Record.

## LATEST WAR NEWS

Germany's reply to the demand of the United States that she cease immediately her present method of submarine warfare is expected within a few hours to be in the hands of President Wilson. The American Ambassador at Berlin went to the German Foreign office to receive the note from the Foreign Minister late Thursday afternoon. Nothing is known as to the tenor of the reply—whether it will acquiesce in full to the President's demand or merely offer concessions. Washington dispatches have indicated that unless full acquiescence is given a severance of diplomatic relations with Germany will follow.

Reuter's Amsterdam correspondent telegraphs to London that Metz, capital of Lorraine, a city of 60,000 population and rated as one of the strongest fortresses of the world, is being evacuated by the civil population.

## RHEUMATIC PAIN STOPPED.

The drawing of muscles, the soreness, stiffness and agonizing pain of Rheumatism quickly yield to Sloan's Liniment. It stimulates circulation to the painful part. Just apply as directed to the sore spots. In a short time the pain gives way to a tingling sensation of comfort and warmth. Here's proof—"I have had wonderful relief since I used your Liniment on my knee. To think one application gave me relief. Sorry I haven't space to tell you the history. Thank you for what your remedy has done for me."—James S. Ferguson, Philada. Pa. Sloan's Liniment kills pain. 25c at Druggists.

## TWO GOOD WEST END MEN Will Be Named On Commission If Road Bonds Carry.

The Interior Journal has received a communication from Squire J. K. Helm, of the Hustonville magisterial district, in which he gives the names of two prominent farmers of the West End, who will be named on the commission to assist the Fiscal Court in handling the road bond money in the event the \$200,000 in bonds is voted by the people at the special election which will be held May 13th. Squire Helm sets forth his position already in the following:

**Editor Interior Journal:—**  
In case the bond issue carries, I will appoint Jones Baughman and John Burton, two suitable men for commissioners of good roads. Now as to Mr. Baughman's credentials: He comes from a family of large landed interests of Lincoln county, for generations back; has had a lot of experience in road building; knows how to take care of a dollar and will make a valuable man on the board. As to Mr. Burton: He started out on the farm at 50 cents a day, got a start, rented a farm, married, raised and educated a family of ten children, and now owns a farm worth \$20,000. He is a mighty clever republican and the people will find him Johnny-on-the-spot when it comes to spending their money.

I have not had a chance to see either of these gentlemen, but take it for granted they will serve.  
Very truly,  
J. K. HELM, Sr.

## PARALYSIS PROVES FATAL.

Mrs. Amanda Mercer, aged 55 years, who resided with her husband on the T. J. Hill farm on the Hustonville pike, died as a result of a paralytic stroke, Tuesday. She was a good wife and mother, and beloved by all who knew her.

A cat belonging to Mrs. E. D. Eads has adopted two little rabbits and gives them as much attention as she does her two kitties. The little family is a very unusual one but seems a happy one, never the less.

## A LIVE FAIR THIS TIME.

A live bunch is at the head of the Danville fair association this year and the best old-fashioned country fair Little Britain has ever had is said to be assured. The Danville Advocate said of the organization and election of officers this week: The new fair association, which has been organized, evidently means business, and Danville is to have a real live, old-fashioned country fair this time. The recently organized board of directors met yesterday afternoon at the court house and elected officers. Hugh Tarkington was elected President, Maurice J. Farris and Homer Wray, Vice-Presidents; J. Beecher Adams, Secretary, and S. H. Nichols, Treasurer. Messrs. Geo. Massey, C. P. Cecil, Jr., John S. Baughman & Son, and T. E. Dunn were also added to the list of directors. The 2nd, 3rd and 4th of August have been chosen as the dates, beginning on Wednesday and lasting three days. The old association's grounds are to be used and no wheels are to be left unturned toward the success of the project. An appeal is to be made to the man close up, and the man far back, by having something to interest all. The idea that the chautauqua is to supplant the fair has been relegated to oblivion, and the new organization will have as its aim the exhibition of local products as well as good offers to out-of-town live stock men. Boyle county and Danville ought to have a good fair, and this organization has every intention of making this year's attempt the best one in years.

## Hustonville

A quiet home wedding, beautiful in its simplicity, was solemnized at the home of Mr. and Mrs. J. J. Allen on last Saturday afternoon at four o'clock, when their eldest daughter was given in marriage to Mr. Richard Poole Anderson, formerly of Mississippi, but at present located at Pineville, Ky. A very few intimate friends and relatives were present to witness the ceremony, which was performed by Rev. A. H. Baugh, in his usual impressive manner. To say that Mr. Anderson has won a prize is putting it in far too mild words. Not only being one of old Lincoln's fairest products, his bride possesses lovable traits of character, far surpassing all physical charms—and will be ever missed among us, where she is much beloved. The groom is connected with the Prudential Life Insurance Co., and possessing a genial, truly southern manner, has made many friends during his sojourn among us. Heartiest congratulations and best wishes follow, the happy pair, who are at present enjoying an extended trip East, including New York, Washington, and other points of interest.

We had an awful nice rain here

## NO MONEY TO OIL STREETS

So City Council Decides Not to Undertake Proposition.

The City Council will not oil the streets of Stanford this summer. Lack of funds was given as the reason at the regular meeting of the City Fathers Thursday night. Much disappointment is heard on all sides that the Council has been forced to take this step as it was hoped by citizens generally that it could see its way clear toward borrowing sufficient funds for the purpose of buying and applying oil and slightly increasing the next tax levy to take care of this extra expense. It has been proposed that the business men and merchants down town, raise a subscription fund to apply oil in front of their places of business, which will probably be undertaken now that there seems little chance of the city doing the work. The council also decided to enforce rigidly the city ordinance against pig pens in the city and notice has been given all who have pigs within the city limits to arrange to remove same at once.

## JOE WARNER COMES HOME

To Get Away from Serious Situation Cause By Big Strike.

Joe H. Warner, son of Mr. and Mrs. W. K. Warner, of this city, returned home Thursday from Pittsburgh, Pa., where he has been employed in the electrical department of the big Westinghouse plant for some time. Workmen there are on a big strike, and it has become dangerous for a man to try to work there, so Joe came home till the labor troubles are settled. He says that 50,000 or 60,000 workmen are on strike for higher pay and shorter hours in that big manufacturing center and that conditions are very serious. Young Warner has made good as an electrician and gives promise of going to the head of his profession in short order.

## DOG CAUSES DOUBLE TRAGEDY

Parksville Murderer Kills Himself Instead of Surrendering.

The Parksville dog was the cause of a double tragedy. Pack Montgomery, who shot Polk Pendergraft to death there Monday, after a quarrel over the canine, killed himself instead of surrendering to the officers as it was reported he would do, killed himself and his body was found in the knobs back of the little village in the West End of Boyle. Following the shooting, young Montgomery telephoned the sheriff of the tragedy and said that he would wait in Parksville until he came. Before the officer arrived, Montgomery evidently changed his purpose for he was not to be found. The sheriff at once organized a posse and gave chase. He pursued the fugitive in the knobs and the party came upon his body with a hole thru the head. The shot is said to have been self inflicted. Montgomery accused Pendergraft of having killed his dog and the fatal quarrel followed. Both were about 21 years old.

## LEE HELD TO GRAND JURY

Negro Placed Under \$200 Bond on Charge of Running Gambling House—Other Convictions

Police Judge R. L. Davison held Will Lee, colored, to await the action of the grand jury in circuit court, under \$200 bond, on a charge of permitting gambling in his house in Maxville, at the trial of Lee this week. Joe Hayden and Charley Baughman, both colored, who engaged in a shooting affray in which both were wounded, at Lee's house, last week, both admitted that they were playing "coon can" for money. Hayden said that they had played several games at 10 cents "on the corner," when the row began. Baughman said that the game was just starting when the trouble came up between them.

Several others pled guilty and took a fine of \$5 and costs each under the statute against loitering on premises where a game of chance is in operation. They were Will Blakeley, Jr., Roy Stewart, Jim Mitchell and Bob Crowe. Lee, in whose house the trouble occurred, asked for a separate trial on this charge as did "Black" Gaines, and they will have their trials today. The trials of the men engaged in the shooting affray have not yet been held.

News was received from the West End today that Sam Pendleton, a young farmer on Brush Creek in Casey county, about 10 miles from Hustonville on Rural Route No. 2, out of that city, killed himself late Wednesday. The young man shot himself with a .38 revolver, and after lingering a short while, passed away. W. H. Lair, of Hustonville, was called on to bury him. Friends who got to Pendleton before he succumbed to his wound, sought to learn the cause of his rash act but he refused to tell why he had done it. He was 30 years of age and is survived by his wife and several children.

## AGREEMENT AS TO MEXICO.

The agreement reached by Generals Scott, of the United States, and Obregon, of Mexico, for the joint pursuit of Villa by American and Mexican troops, has been ratified by President Wilson. The White House has not permitted any announcement to this effect to be made, but it was learned that just as soon as word is received that Carranza approves the pact this government will announce officially that it has also done so.

It was learned on official authority that the agreement does not set any time limit for the withdrawal of the American troops. The wording of the pact is such that the American forces can remain in Mexico indefinitely unless Villa is either captured or killed or his forces effectively dispersed, and as soon as there are definite indications that American border towns are no longer in danger of raids.

The agreement provides that the American commander in Mexico is to have free use of the Mexican railways for transporting supplies to his troops.

Real co-operation by the Mexican forces with the American troops is provided for in the agreement.

It is understood that General Scott has pledged that the Mexican troops will be allowed to have every chance to kill or capture Villa. The American troops will give the Mexican forces their support, it is said, but will not attempt to take the glory of capturing Villa away from them.

It is understood the White House will make public the text of the agreement just as quickly as it learns that Carranza has ratified it.

## Valuable Health Hints For Our Readers

**CATARH**  
Just because you hawk and spit and your nose is wet, cold, red, sore and a nuisance, don't merely plug it up. You can't cure catarrh by greasing your nose. Take S. S. S. regularly and you will drive catarrhal poisons out of your blood. The membranes will soon recover and no longer continue to accumulate the mucous that gathers and thickens into catarrh. S. S. S. stimulates the life of the tissues to select from the blood their own essential nutriment. Rapid recovery from catarrhal inflammation in the stomach, kidney, bladder and all membranes is the result.

**MALARIA.**  
Throughout the country, wherever malaria abounds, are happy, joyful people to whom S. S. S. has given wonderful help in the treatment of malaria after the most sickening torture imaginable.

The gaunt complexion of malaria's victims, the chills and fever, the malarial dysentery that seems to defy all other treatment, the malarial leg, the enlarged liver, the persistent anemia where the blood turns to water and the system wastes away. These are the conditions that S. S. S. so effectively assists in overcoming, by helping to restore the blood to its natural vigor.

**STUBBORN SORES.**  
Sometimes a sore spot becomes indolent. The tissues surrounding it lose tone and are unable to provide sufficient nutriment to stop the drain. It is then chronic. Just saturate your blood with S. S. S. This is quickly accomplished, as S. S. S. is naturally assimilated the same as milk or any other healthful liquid.

Nature acts with marvelous rapidity when given the proper assistance, and S. S. S. so stimulates cellular activity that the parts surrounding an ulcer select from the blood the materials that make new tissue. Thus the sore spot rapidly heals in a natural way.

Local applications for any skin disease will afford protection from with-

out, but have no medical value. Eczema, tetter, acne and all such eruptive diseases should be treated with S. S. S.

**POISONED BLOOD.**  
So many different things contribute to poison the blood and the effect is so startling that the sufferer becomes panic-stricken and is led to use harmful drugs. If you have any blood trouble, get a bottle of S. S. S. and take according to directions.

Don't take anything else. Poisoned blood is bad enough without ruining your bones, joints, teeth and vitals with minerals. S. S. S. so stimulates cellular activity that they reject all poisonous influences and select only those materials in the blood that make healthy tissue. This is why its assistance toward recovery is so noticeable and at times remarkable.

S. S. S. is welcome to the weakest stomach and is assimilated just as readily as the most nutritious food. It has helped to cure a host of sufferers.

**RHEUMATISM.**  
In any form of rheumatism give the blood a good effectual cleansing with S. S. S.

Use this remedy for three days and take a hot salt water bath to open the pores. This relieves the lungs and kidneys and assists S. S. S. to utilize the skin as the principal avenue of elimination.

Avoid salts, calomel and other drastic purgatives, as they absorb the moisture from the walls and membranes of the intestines, weaken the muscular action, produce chronic constipation and thus stagnate the system with rheumatic poisons. Get a bottle of S. S. S. at any drug store. Don't take a substitute.

S. S. S. is purely vegetable and is prepared only by the Swift Specific Co., 271 Swift Bldg., Atlanta, Ga. Write for special booklet on any of the diseases mentioned and if medical advice is wanted, write for that also to address given above. Both booklet and medical advice are free.

### TENTH EPISODE

#### THE LIVING DEAD

"I'm opposed to your plan, sir," Enoch Golden declared with heat, "and I always will be opposed to it!" David Manley, as he stared across the table at the ruffled old millionaire, tried to control himself to patience.

"But you acknowledge that you are equally opposed to Legar's intrusions into this house, to having his secret agents planted about at your elbows. But when I work out a plan that offers a reasonable promise of trapping Legar and his men, you stop the whole business by declaring it's lacking in dignity!"

"Dignity is something which departed from this house the day Legar first forced his way into it!" was Golden's bitter retort.

"Precisely!" cried young Manley. "His whole campaign has been one of intimidation, of threats and assaults and reprisals. They have been trying to fight us with terror. So my contention is, why not give them a dose of their medicine? Why not fight them with their own weapons, and in doing so, perhaps go them one better?"

"But I can only repeat my convictions that your plan can't succeed!" protested the tremulous-voiced old financier.

"Why not leave that to me?" cut in young Manley, with his first touch of impatience.

"I've left a good many things to you, Davy; but I don't encourage men to plan their own funerals!"

"Yet I've thought this out, sir, and I maintain that it's worth a try. You know as well as I do that these men who work with Legar are an ignorant and illiterate lot. They're not afraid of force. But when you confront them with the supernatural, you get them face to face with something they can't understand. And what they can't understand they are going to be afraid of."

"And you think you're going to frighten 'em away with a casket!"

"I'm going to make them believe that David Manley, having departed this life because of an attack on his person by one Mauki, with poisoned arrows, is about to be duly interred in the Golden mausoleum, and—"

"But you couldn't even get a wax figure that would fool a five-year-old child! You couldn't—"

"I've already got the figure, interrupted Manley. "And it strikes me as being an exceptionally perfect one."

"But what's all this funeral business to lead to?" demanded the old financier.

"It leads to the fact that Legar and his men will be duly informed of my death, for I want all the servants in this house to pass before the casket and see me in it. And Legar's spy will be one of them. So Legar, you may be sure, will get the facts as soon as they are known. He will be tipped off as to the day and hour of the funeral. He will also be told that the cortege, say of three carriages, is to proceed to the Golden mausoleum, and that Margery Golden is to go in one of the carriages. And that lonely spot will strike him as precisely the right spot for making a coup."

"And what do we gain by that?"

"We'll fill our big thirty-thousand dollar mausoleum with thirty big policemen, and round up the gang before Legar can even smell a rat."

But Enoch Golden remained unconvinced.

"Well, it may be a brilliant plan, but you can please leave me out of it," he finally announced.

"That's just what I've been asking for," explained Manley. "All I want is to be allowed to conduct it in my own way."

David Manley, however, did not conduct that strange funeral altogether in his own way. Carefully as every detail had been planned, there were one or two minor features which at the time escaped his attention.

The most inconspicuous and yet the most vital of these was, perhaps, the personality of the driver of the third carriage in that small cortege which wended its way so decorously from the Golden home. For under the funeral outfit of this placid-eyed driver reposed the stalwart body of a certain One-Lamp Louie, long known among his associates as an habitué of the Owl's Nest and an underground agent for Jules Legar himself.

Now One-Lamp Louie gave no promise of either active or passive interference with these duly appointed mortuary exercises until the city itself had been left well behind. Then, awakening to the fact that they were traversing a desirably sequestered stretch of road, he watched intently for certain prearranged signals from his one-armed accomplice. Immediately after the discovery of those looked-for signs the spirited team driven by One-Lamp Louie showed unexpected yet unmistakable evidences of restiveness.

But there was a limit to what that team of spirited blacks would endure. And they suddenly, to all intents and purposes, determined to follow their own line of travel at their own rate of speed, for, as the driver sat on the box apparently sawing on the reins, that exasperated team plunged suddenly forward, swerved across the road, and went galloping down a tree-screened bypath which was little more than a cart trail winding in and out through slopes of greensward and shrubbery.

Half a mile deeper in that shrubbery this runaway team would surely have reached the spot where a black limousine stood hidden away in the shadow of laurel-cope, had not still another and an equally unheralded factor entered into the situation. This factor took the form of a high-power roadster in which was seated a man wearing a yellow mask. His irritation into that orderly little procession, indeed, proved as abrupt as One-Lamp Louie's eruption from it. And he seemed plainly suspicious of both Louie's motives and movements, for he lost no time in swinging from the highway and plunging recklessly after the runaway carriage.

As his car approached the runaway cab that mysterious stranger, known as the Laughing Mask, stepped to the running-board of his roadster, leaning far out as the two swerving vehicles drew together. One-Lamp Louie, whatever he may have thought of that approach, had little means of evading

it. To swing off what narrow road remained before him seemed frankly suicidal. To lash his team to greater effort was already out of the question. To take his hands from the reins, even, along that uncertain road, was equally foolhardy. So the strange race went on, the swaying and bounding cab with a white-faced girl tossed about under its hood, the leaping and lurching roadster, every second drawing closer down on its quarry yet every second threatening to turn turtle over one of the grassy embankments above which it shuddered and slowed.

It was the Laughing Mask, leaning far out from his running-board, who threw open the cab-door and called sharply to the startled girl.

"Quick," he commanded. For one moment she hesitated. Then she reached out for the unsteady hand groping for her.

The next moment she found herself sitting back, a little breathless, in the leather-upholstered seat of the roadster and the man in the Laughing Mask smiling down at her.

### The Black Watch.

A number of things had happened and were happening to disconcert, if not to discourage, the redoubtable Legar. That astute young adventurer, Betsy Le Marsh, alias Williamsburg, Elsie, who, with the aid of divers forged recommendations, had installed herself in the Golden household, repeatedly and stubbornly reported that David Manley was dead.

Williamsburg Elsie also expressed a strong desire to migrate from the house in which she found herself so inquisitive a maid, since that house, she declared, was too full of "queer things" for her comfort.

When, at Legar's suggestion, she had tried to "pump a needleful o' dope" into her altogether unsuspecting mistress, a dead man's face had suddenly appeared between her and the bedroom door. And on two different occasions, after midnight, when she had ventured down to the housekeeper's telephone to send in a secret message to Legar himself, she had found herself confronted by a ghost in white.

Nor was Betsy Le Marsh the only malcontent. Even Red Egan himself, one of the best "cold-steel" men in all the group that clustered about the Owl's Nest, had of late shown unmistakable signs of mental disturbance. A dead man's ghost, he declared, had looked in through one of the headquarters' windows. Red Egan, it is true, had promptly emptied his six-shooter at that phantasmal intruder but with nothing more to show for it than a shattered window-sash and shrapnel of broken glass.

When the master-criminal, to put an end to all such absurdities, had by the force of many dire threats and oaths compelled both One-Lamp Louie and Red Egan himself to repair to the

explosive power which stood compressed between its slender metal walls.

Legar was not a coward. Yet as he stood in the clammy midnight air of the Golden mausoleum and quietly removed the screws that held the top on the black casket beside him, he found that combination of silence and gloom and unsavory surroundings a little more of a strain on his nerves than he had anticipated. Yet as he lifted back the sable cover of the casket he did so with a hand that was still steady.

Thence he took up his flashlight, and pressing close to the coffin's side, stood studying the pallid face that lay surrounded by its even more pallid drapery of white satin.

He stared at that pallid face long and intently. He stared at it with studious and narrowing eyes. Then he did a strange and an inexplicable thing. Lifting his maimed right arm that ended in its shank of steel, he brought it down with a crash on the glass cover of the casket. Then, as though infuriated by some unreasoning hatred for the pallid face still staring so impassively up at him, he struck again. This time the blow fell directly on the head between the white satin swathings. But that falling arm, instead of striking a human head of flesh and bone, crashed down through a thin shell of fiber and tinted wax.

Legar, focusing his light on that shattered mask, emitted a short bark of triumph as the meaning of it all came home to him. He leaned for several minutes over the violated casket, staring at it with insolent yet abstracted eyes, pondering just what move could lie beyond so intricately engineered a subterfuge. And the answer to that question came more promptly and more directly than he had anticipated. For as he stood there, turning a piece of the wax-covered tissue meditatively over in his fingers, the electric bulbs that strung the mausoleum roof broke into sudden light. From different quarters of that shadowy building, at the same time, stepped a group of hidden officers, headed by David Manley himself.

So quickly and so quietly did that transformation take place, indeed, that the man leaning over the casket had neither time nor chance to change his position. He merely blinked a little stupidly at the revolver which glimmered in Manley's hand. Then, with a gesture that seemed equally stupid, he reached for his watch and held the heavy gun-metal case meditatively between his fingers.

"Stick 'em up!" Manley was at the same time commanding with a curt head movement towards Legar's hands. "It may have taken some work, but this is the time we gather you in!"

When She Tried to "Pump a Needleful o' Dope" Into Her Mistress, a Dead Man's Face Appeared.

Golden mausoleum and verify the contents of the mysterious casket there deposited, Red Egan had returned with the preposterous story of a white sheet suddenly descending out of the blackness of the vault and whisking One-Lamp Louie out of reach and also out of sight. And since the once valiant Red Egan showed so craven a spirit that nothing short of a quart of three-star brandy could tranquilize his shakiness, and since One-Lamp Louie showed no signs of returning from the mysterious realms into which the afore-mentioned white sheet had whisked him, Legar promptly and wrathfully decided to take the matter into his own hands. He would lay this ghost, he announced, or something would go smash in the process.

But he had no intention of approaching that intimidating mausoleum without due and definite preparation. With him he took a powerful pocket flashlight, a Colt automatic pistol and a couple of extra clips of cartridges. But the instrument on which he reposed the most confidence was a gun-metal disk little bigger than a pocket aneroïd, some three inches in diameter and no thicker than a man's hand. This innocent-looking disk, which could be slipped into a vest pocket as easily as a timepiece, was known to the habitués of the Owl's Nest as the Black Watch.

While actually nothing more than a small-sized hand grenade, its claim to distinction lay in the tremendous explosive power which stood compressed between its slender metal walls.

And out of those ruins, while this work was going on, emerged two bruised and tattered figures strangely divergent in appearances. The first figure, wearing its way out through the interstices of crumbled rock and

cement, as cautiously and as silently as a wounded blacksnake might crawl from a cave, bore an iron claw at the end of its right arm and betrayed an unmistakable desire to creep away into the darkness before being observed.

The second man, who, on recovering consciousness found himself engaged between two fallen pillars of marble topped by one of the roof slabs, experienced no little difficulty in emerging to the open, so closely were these protecting pillars wedged about him.

But as he worked his bruised body through that Giant's Causeway of broken rock, he felt grateful enough, remembering what had happened, to be still alive. And sore as he was in body, he was even more bruised in spirit at the memory of the fact that his enemy, Jules Legar, had at the last moment escaped from his clutch.

### The Lake of Fire.

Legar, lucky as his escape had been, knew that his margin of safety was still too narrow for much immediate comfort of either mind or body. So he crawled away as best he could, nursing his strength when he came to cover and going on again when some passing light showed that cover to be none too dense. But he did not give up until he had reached higher ground. There he was able to hide himself in a thicket and rest for an hour or two.

But to remain in that neighborhood until morning, he knew, would be out of the question. About that whole suspected area, he felt, the police would surely throw a cordon, and the resource of disguise was no longer at his disposal. Already from where he lay, he could see dozens of moving lamps of workers about the mausoleum ruins. He could also see the glow of a powerful pair of headlights, apparently on a motor car threading its way to the scene of the explosion. And to the north he could even more distinctly see the fiery tongues of the chimney flares above the Westingham foundry, where hundreds of toilers, turning night into day, worked about the great blast furnaces and cauldrons of molten metal.

In a foundry such as that, he suddenly remembered, lay his best chance for escape. Disheveled as he was, he could pass unnoticed among those sooty workers. And when the night shift went off, he told himself, he could slip away in their midst, unnoticed and unchallenged. And if the worst came to the worst he could crawl into hiding somewhere about the tangle of machinery under that foundry roof itself, and there lay up until he knew the coast was clear again, with the chance of stealing a puddler's "jumper" for a disguise and a dinner pail or two full of food for a meal.

All this Legar might have done, and might have done without great difficulty, had not a trace of his older obsession of hate impinged on his clearly outlined course of action.

He was once more himself, by this time, walking with a limp that was scarcely discernible. But as he stole down from the higher ground and made his way back towards the Westingham chimney flares he became once more conscious of the whiter glare along the roadside he was so cautiously skirting. This, he remembered, as he stole nearer, came from the headlights of a stalled limousine. Then he made a second and a more startling discovery. He knew, even before he caught sight of Train working over his helpless car, that it belonged to Enoch Golden. But what actually drew him closer to the spot was a glimpse of Margery Golden herself, in a gray fur motor coat, as she stepped from the body of the car and came full into the glare of the headlights, closer beside her stooping chauffeur.

"Are we stalled?" he could hear the girl ask.

"We'll be off again in a minute or two, Miss Margery," was Train's preoccupied reply.

"But I can't stand here helpless," protested the girl. "I can't wait. I must know what has happened to David Manley."

"Whatever it was, it's over and

done by this time."

"But he may be dead. He may be lying crushed under those fallen pillars. I must go on. Tell father I couldn't wait, that I've gone ahead on foot!"

Legar, crouching back in the shadows, heard these hurried words and as hurriedly acted on them. Slinking back through the bushes, he swung about and followed the girl through the darkness.

Yet it was not until the girl had passed well out of hailing distance of the headlighted car that Legar circled even more hurriedly forward and swung in again to intercept her.

She was struggling, a little breathlessly, up a sandy slope, with her straining eyes still fixed on the moving lanterns about the ruined mausoleum.

Then, swinging apparently out of the empty air about her, a circle of steel, suddenly encompassing her arm, brought her to an abrupt stop.

With one quick movement Legar tore the motor veil from her head, twisted it into a coil, and flung it about her neck. And all the while the Iron Claw, grappling at her arm, held her as a steel trap might.

She was already dizzy with pain when she heard the sharp crack of a revolver shot close over her shoulder. This was followed by a quick shout and a muttered oath. She felt herself forcibly flung from Legar's arms into the arms of another man panting breathlessly up the sandy slope. She could see this man, even as he held her from falling, stop to level his gun at the fleeing figure of Legar. She could see him shoot again, and still again, at the same moment that Train and the plunging automobile came throbbling and panting up to the scene, the electric lamps throwing out their wavering, long columns of white light as they came. Then the stranger, arrested by certain gasping and gurgling sounds from the throat of the half-garroted girl in his arms, stooped down and tore the constricting veil away from the slender, white column of her neck. And Margery, opening her eyes, saw that it was the Laughing Mask bending above her.

"It was Legar!" she gasped as Train, followed by her father, came panting up to where they stood.

"And there he goes now!" cried the Laughing Mask, pointing down the long lane of light coming out from the car's lamps. Across that narrow river of light they could catch a glimpse of a tall figure skulking off into the darkness.

"Follow that man with your car," the Laughing Mask suddenly cried out to the chauffeur.

"No car could travel through country like that!" protested Train.

"Then keep your lights on the main road to the west here, so as to pick him up if he tried to break through on that side. I'll swing around by the foundry yards and head him off in the east!"

And the next moment the man in the yellow mask had disappeared in the darkness. Golden and his daughter stood staring after him.

Two minutes later the blackness that had swallowed him up was stabbed by a series of flame flashes, followed by the repeated bark of a revolver. From the gloom still nearer the shadowy piles of the Westingham foundry came an answering series of shots.

"That means he's making for the foundry, sir!" cried the excited Train as he swung his car about.

"Then, for God's sake, get us there, as quick as you can," commanded Enoch Golden as the car lurched and pulsed and crawled on between the broken shrubbery, in perilous search for some open pathway.

But both Legar and his pursuer were by this time well beyond their line of vision. That desperate-minded master criminal, in fact, realizing that his enemy was pressing close at his heels, mounted a slag pile, dropped flat, and emptied his revolver into the darkness, where the Laughing Mask should have been.

But the wary pursuer, dropping low beside an empty pitch barrel, held his fire and waited. The moment he heard the crisp sound of footsteps along the slag slope he once more

took up the pursuit.

That pursuit led through a narrow lane between great piles of structural iron. It led through an abandoned boiler room, then on through a dimly lighted and low-roofed structure of pulleys and lathes, and from there to the brighter lighted and higher roofed metal room of the foundry itself. There, beside glowing furnaces half-naked men tolled over incandescent annealing boxes and cauldrons of molten metal. There gigantic track cranes swung bowls of liquid fire from crucibles to mold beds.

And there the hurried Legar, bewildered by the sudden bright light, ran like a pelted bound down the sandy paths between forge and coke oven and cauldron crane. There, seeing his way blocked by a group of round-eyed Lithuanians, he swung, catlike, up into the iron network of the cable bridges, with his pursuer still close at his heels. And there, midway across that smoke-stained roof, that echoed with the tumult of thunderous hammers and directly over a king cauldron of molten steel, the two men came together.

There Legar, with his metal claw hooked securely into the iron network above his head, swung about and faced his enemy. And there, on that grimy bridge high above the equally grimy workmen who left their forges and lathes and cauldrons to witness the struggle, the two enemies, who had so long and bitterly opposed each other, found themselves face to face for their final struggle.

Yet the man in the yellow mask seemed the cooler headed of the two, for as Legar struck snarling at his face he ducked low on his narrow perch and at the same moment whipped his revolver from the side pocket of his coat. Yet Legar, with a movement equally prompt, kicked viciously at the fingers clustered about the gun-butt before the weapon itself could be brought into use. The next moment that weapon fell with a hiss and splash into the lake of molten metal beneath them.

Then the struggle became one of tendon against tendon, of straining muscle against muscle, of empty-handed mortal strength pitted against mortal strength. There, like animals of the wild, high in some Amazonian eyrie, the two strangely entangled figures fought and struggled and clawed and struck.

In the matter of mere physical strength Legar seemed to have the advantage. And what under ordinary circumstances might have proved a disability could now be turned to his advantage. For the iron claw at the end of his right arm, hooked securely into the network of steel behind him, held him there without effort and without strain. His opponent, on the other hand, found it no easy task to make sure of his perch above that ever-intimidating cauldron of molten metal. His arm shook with the tension imposed on his overtaxed muscles. His fingers became numb with pain, threatening to lose their prehensile power, and even as he fought he weakened to a realization that he must change his hold.

It was as he maneuvered to bring about this shift of position that the ever-watchful Legar, alert for the most trivial advantage, saw his chance. Swinging his body suddenly free from its footing on the narrow ledge of metal where he stood, he pendulumed towards his momentarily unstable opponent, throwing his feet forward and upward, as he did so, with all the force of a football player kicking a double punt.

The force of this unlooked-for impact was too much for the man in the mask. He tottered back, caught frantically at a soot-covered steel bar beside him, dropped the full length of its diagonal course before he could make sure of his clutch, and came into violent collision with the heavy iron block of a crane ladle. There, half-stunned by the blow, he fell sprawling across a polished steel cable which drooped floorward between the block and its empty metal pot. He tried to clutch that cable as he fell, but his speed proved too great and his overtaxed fingers were too weak. As he fell along its polished surface, how-

ever, it offered sufficient resistance to carry his limp body beyond the peril of that open lake of molten metal, which, his frantic brain kept telling him, meant death. And as he dropped weakly from the cable loop to a pile of molding sand lying between a casting box and an empty spill trough, a score of watching men gave utterance to a shout of relief and a score of waiting hands were there to help him to his feet.

So intent were those astounded ironworkers on watching that perilous fall, however, that they paid scant attention to the second figure climbing spiderlike higher along the blackened ironwork of the blackened roof. They caught no glimpse of him as he scrambled, sooty and panting, through the ventilating flue that opened on the roof itself. Nor did any eye follow him as he crept, gorilla-like, along the perilous slope of that roof until he came to the end of the building. Along this end he found a lightning rod, running from the peak of its roof to the ground. He promptly tested the strength of this wire, satisfying himself carefully, foot by foot, by means of one hand and an iron hook which struck and clung to the metal with the vicious tenacity of an eagle's claw.

When he reached the ground, still breathing heavily, he looked cautiously about. Then, making sure he was not observed, he slipped into the shadow of a pile of iron ingots, once more waited and listened, and then, crouching low, crossed the foundry yard and climbed the high board fence surrounding it. And a moment later the darkness of the night had swallowed him up.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running ear or imperfect hearing, and when it is entirely closed deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

## A WORD FOR MOTHERS

It is a grave mistake for mothers to neglect their aches and pains and suffer in silence—this only leads to chronic sickness and often shortens life.

If your work is tiring; if your nerves are excited; if you feel languid, weary or depressed, you should know that Scott's Emulsion overcomes just such conditions. It possesses in concentrated form the very elements to invigorate the blood, strengthen the tissues, nourish the nerves and build strength.

has to say about  
cream separators  
this week.

It will be worth your while to find out what some of your neighbors who use De Laval Cream Separators are in use than all other makes combined. About the best thing we can say for the De Laval is that all the farmers around here who use it are boosters.

It does good work for them and pleases them, and we know it will please you.

Make it a point to ask your neighbor about his De Laval.

There are nearly two million satisfied De Laval users throughout the world. More De Laval Separators are in use than all other makes combined. It isn't the cheapest, but the majority of separator users have found out by experience that it is the best and by far the most economical separator to own.

We want to tell you about an arrangement we have whereby you can make partial payment at time of purchase and pay the balance on such liberal terms that the De Laval will save its cost while you are paying for it.

Come in and see us the first time you have a chance and talk it over.

Sooner or later you will buy a DE LAVAL

#### FOR CONGRESS

CHARLES F. MONTGOMERY

Next Sunday, May 7th, has been set apart by authorities both religious and non-sectarian as Go-To-Sunday-School-Sunday. The motive behind the movement is to be heartily commended in every way. The work which is being done by the Christian Sunday schools of the nation is growing in scope and importance every day. But the endeavor to make a big showing in attendance on some particular Sunday should not be permitted to obscure the fact that Sunday school is held in most churches each and every Sunday and some times, a long continued campaign accomplishes more real good than spasmodic effort. Go to Sunday school, Sunday May 7th and every Sunday thereafter.

Editor James B. Stears, of the Nicholasville News, is either the most modest man in the world or else, his city editor took a vacation this week. Editor Stears was appointed post-

master early in the week, but his paper came out several days later with nary a line about his appointment, which was easily the biggest news item that had occurred in the pretty little capital of Jessamine for some time.

There will be Memorial Services at Ephesus Baptist church on Sunday, May 28. Everybody invited to come and bring well filled baskets. The day will be spent in singing by a good choir and preaching and lecturing. The graves will also be decorated. We are expecting a large crowd.

**IRON BRIDGE IN BAD SHAPE.**

The "Iron Bridge" on the Lancaster and Danville pike broke through Monday afternoon, when a large truck belonging to the Shelbyville & Mt. Eden Truck Co., driven by Capt. B. Burdette, and heavily loaded with household goods belonging to J. B. Parks, was about two-thirds of the way across. Only the wooden sills and flooring gave way letting down the rear wheels, until the body of the truck struck the flooring. More than 25 sills were broken along the entire length of the bridge and it was almost a miracle that the whole machine did not fall through to the river 30 feet below. The occupants, besides Mr. Burdette, were Mr. and Mrs. Jesse Parks and two children. All had a considerable scare but are congratulating themselves that the accident was not more serious. The bridge will be repaired at once with new flooring and sills.—Lancaster Record.

### CATARRH MOST PREVALENT HERE

Indoor Worker More Susceptible to Common Diseases Than Others.

Probably the most distressing and prevalent disease to which Americans are heirs is catarrh of the mucous membranes. According to medical authorities the indoor worker is more susceptible and is the worst sufferer from catarrhal conditions, of which there are many kinds.

Catarrh of the stomach and kidneys is one of the most common causes of dyspepsia and Bright's disease, and catarrhal conditions of the nose and throat often lead to deafness. Nine out of ten cases of deafness can be traced to catarrh, it is said.

Frequently the lungs become affected by the extension of catarrhal inflammation by way of the bronchial tubes to the lung substance.

The mental and physical state of the catarrh sufferers is, indeed, very unfortunate, and it is surprising to know what an immense number of people among those who reside in such cities as Stanford are suffering from this almost universal malady when they believe something else is the cause of their trouble.

The symptoms of catarrh are: offensive breath, constant sniffing, discharge from the nose, headaches, full head, pains in the stomach, unsound digestion, loss of appetite, broken sleep, and a great liability to catching colds and sore throats.

Tanlac, the famous reconstructive tonic, was designed to relieve just these conditions. Thousands of men and women have unhesitatingly acknowledged the benefits they have derived through this Master Medicine.

Tanlac restores lost appetite, relieves sniffing, discharge from the nose, headaches, and stomach pains, and will assist in the assimilation of food and bring back sound sleep, according to thousands who have realized the benefits from this wonderful preparation.

Tanlac is a tonic of rare properties, an appetizer and general invigorant designed to rid the system of congestion, tone up the stomach, overcome indigestion, headaches, backaches, non-assimilation of food, nervousness, dizziness, ailments of the kidneys and liver, and the complaints that are so common to the half-sick, debilitated men and women of today.

Tanlac may be obtained now in Stanford at Penny's drug store, where it is being especially introduced and its merits explained by the Tanlac Man. 36-1

Tanlac may be obtained at the following nearby cities: Moreland, Abraham Minks; Hustonville, Adams Bros., McKinney, True & Co., Ellisburg, Joseph McWilliams; Middleburg, W. C. Bryant; Crab Orchard, Lyne Bros.; Brodhead, John Robbins; Junction City, Reynolds & Evans; Lancaster, R. E. McRoberts; Bee Lick, J. Reynolds & Son.

Fleming county will vote on a \$150,000 road bond issue July 1.

### A UNIQUE RECORD

Very Few Like It In Our Broad Republic.

Grateful testimony for Doan's Kidney Pills, published everywhere is of itself convincing evidence of merit. Confirmed testimony forms still stronger evidence. Years ago, a citizen of this locality gratefully acknowledged the benefit derived from Doan's Kidney Pills. The statement is now confirmed the proof more convincing. Cases of the kind are plentiful in the work of Doan's Kidney Pills: the record is unique.

John T. Barnett, carpenter, Rowland, Ky., says: "I have used many kidney medicines in the past few years, but Doan's Kidney Pills were the only ones that gave me relief. My work calls for heavy lifting and much stooping. This weakened my kidneys and caused attacks of lumbago and a severe ache across the small of my back. I also had other annoyances, caused by weak kidneys. Doan's Kidney Pills brought prompt relief."

OVER THREE YEARS LATER, Mr. Barnett said: "I have had no return of kidney complaint since I used Doan's Kidney Pills and I look upon the benefit as permanent."

## Women Sufferers Need Swamp-Root

Thousands upon thousands of women have kidney and bladder trouble and never suspect it.

Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease.

If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

You may suffer a great deal with pain in the back, headache, loss of ambition, nervousness and may be dependent and irritable.

Don't delay starting treatment. Dr. Kilmer's Swamp-Root, a physician's prescription, obtained at any drug store, restores health to the kidneys and is just the remedy needed to overcome such conditions.

Get a fifty cent or one dollar bottle immediately from any drug store.

However, if you wish to test this great preparation send ten cents to Dr. Kilmer & Co., Binghamton, N. Y., for a sample bottle. When writing be sure and mention the Stanford semi-weekly Interior Journal.

## Heard About Town

W. H. Higgins is improving his home on Main street by erecting a concrete porch in front which makes it one of the handsomest residences in town.

Judge James P. Bailey, Kendrick Alcorn, Bailey Hill and J. W. Rout, Jr., were most delightfully entertained at the home of the latter's brother, Beverley Rout, at his country home.

G. R. Lawler, inspector of the Adams Express Co., with headquarters at Paris, was here with local agent J. S. Rice Wednesday and Thursday.

He found things in fine shape here and was very complimentary of Mr. Rice's management of the company's affairs.

"Hamilton Did It" has just completed a very handsome front sign for the hustling and popular gent's furnishing firm of Phillips & Phillips, on the corner of Main and Lancaster streets. It is of raised gold letters on a black background and is easily the most attractive in town.

Mr. George Miller Givens has returned from a protracted visit to his son, Rufus Givens, near Mobile, Ala.

## A Little Blossom To Delight the Home

When it is known that in the near future the home is to be blessed with a new arrival the first thought should be "Mother's Friend."

This is an external remedy gently applied over the stomach muscles. It makes them firm and pliant, they expand naturally without undue strain. It removes from the nerves those influences which are responsible for much of the pain incident to the period of expectancy.

It is for this reason that much of the distress such as morning sickness is avoided. All prospective fathers should see to it that the expectant mother is provided with a bottle of "Mother's Friend."

The directions are simple. Get it at any drug store. It is applied by the expectant mother herself. It penetrates deeply and affords quick and splendid relief in a most gratifying manner and reflects a physical betterment to the nervous disposition of the baby. Don't fail to get a bottle of "Mother's Friend" today and then write Bradford Regulator Co., 418 Lamar Bldg., Atlanta, Ga., for a pretty little book bristling with information for expectant mothers. It is a delight to read it.

## FAMILY AVOIDS SERIOUS SICKNESS

By Being Constantly Supplied With Thedford's Black-Draught.

McDuff, Va.—"I suffered for several years," says Mrs. J. B. Whitaker, of this place, "with sick headache, and stomach trouble."

Ten years ago a friend told me to try Thedford's Black-Draught, which I did and I found it to be the best family medicine for young and old.

I keep Black-Draught on hand all the time now, and when my children feel a little bad, they ask me for a dose, and it does them more good than any medicine they ever tried.

We never have a long spell of sickness in our family, since we commenced using Black-Draught."

Thedford's Black-Draught is purely vegetable, and has been found to regulate weak stomachs, aid digestion, relieve indigestion, colic, wind, nausea, headache, sick stomach, and similar symptoms.

It has been in constant use for more than 70 years, and has benefited more than a million people.

Your druggist sells and recommends Black-Draught. Price only 25c. Get a package today.

## Practical Economy

Baking powders made from alum or phosphate may be bought for a trifle less than Royal Baking Powder, which is made from cream of tartar, derived from grapes.

Alum powders are not only cheap, but they differ greatly in leavening power.

If a cheap baking powder is used for a fine cake and the cake turns out a failure there is a waste of costly materials worth more than a whole can of the cheap baking powder.

Royal Baking Powder produces the finest food, and its use therefore, results in an actual saving.

## LINCOLN'S CHOICE

The great young stallion, Lincoln's Choice, by Kentucky's Choice, will make the season of 1916 at my farm about three-quarters of a mile from Eubank at the Stanford and Somerset cross roads at

### \$25 to Insure a Living Colt

Lincoln's Choice is one of the richest bred young stallions in Kentucky, and will produce the highest class saddle and harness colts that money can buy. His sire, the famous Kentucky's Choice, has been for years the champion saddle stallion of Kentucky, and that Lincoln's Choice has inherited his father's rare qualities is shown by this horse winning in his weanling and yearling form at Stanford, Danville, Lexington, and the State Fair at Louisville. Lincoln's Choice stands 15.3 hands high, is of fine bone and station and must be seen to be appreciated. He is a magnificent individual and is just the sort of a stallion to which to breed your farm and driving mares for he will put the stamina and style into his colts.

### A BIG FINE JACK.

At the same place I will stand my fine, big mule jack, which is a three-year-old, 15.1 hands high and will get you the big strong mules that bring the big money. This jack is by Baughman's Jack at Stanford, which is one of the finest in Kentucky, and this is the sort of breeding that all the mule men are looking for. Will stand this jack at \$8 to insure a living colt.

I will also stand a black Polled Angus Bull at the same time and place at \$1.50 at the gate. He is 18 months old and weighs 1,015 pounds.

Money is due on both horse and jack seasons when colts are foaled or when mares are bred elsewhere. Care taken to prevent accidents, but not responsible should any occur.

## CARTHAGE WOMAN TELLS HAPPY STORY

Mrs. Laura Duke of Carthage, Tenn., was a victim of stomach disorders for several years. She lost appetite and her weight fell off. She could not rest at night.

She took Mayr's Wonderful Remedy—just a few doses—and found herself restored.

In fact, Mrs. Duke's recovery was so rapid she was afraid that it could be only temporary. So she waited from September, when she took the remedy, until the following February to pass judgment. Then she wrote:

"I write you in regard to your wonderful stomach remedy that I took last September. I feel better than I have in five years."

"My weight was 127½ pounds; now it is 147½, and I can eat anything I want. I sleep well at night. I would have written before, but I wanted to see how I got along."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfied factory money will be returned.

## Kentucky Gentleman

5167

Why pay two prices for anything and go 30 or 40 miles when you have just as good or better right at home for less than one half the money? Giving to the temporary depression in the price of horses, I am going to stand Kentucky Gentleman at the extremely low price of \$15.00 to insure a live colt. Did you ever have a chance like that before? Just think of it—when horses of his class usually stand at \$30 to \$50.

For size, style, action, conformation and breeding, you cannot beat him in the state. He is transmitting these qualities to his colts. Why not take advantage of this great opportunity?

Almost everyone predicts that the price of horses will be higher within the next two years than ever before. Kentucky Gentleman 5167, by Chester Peavine 3184, by Rex Peavine 1796; dam Flora Carter 8419, by Red Squirrel 53. Will make the season at my home, one mile from Stanford on the Danville pike, at \$15.00. Not responsible for accidents should any occur.

## VOLTAIRE

55140

There is no doubt about Voltaire being the best breeding as well as the best bred big horse in the county and possibly in the State. Each time he has been shown he has easily won first premium and his colts have won first every year they have been shown. There has been more demand for big horses within the last year than was ever known before. Quite a good many farmers have almost stopped raising horses and that is sure to make a demand for them. Nearly every farm paper you see advises the farmer to raise bigger and better horses. I think right now is the farmer's opportunity. Bring your good mares to Voltaire and you are sure to get a good colt. He will make the season at my farm, one mile from Stanford on the Danville pike at \$15.00 to insure a living colt. Money due when colt is foaled.

**J. NEVIN CARTER, Stanford, Ky.**

## Carroll Preston 4383

I will stand this great sire and show horse for the season of 1916, at stable, back of A. T. Nunnally, at the low figure of

**\$15.00 to Insure a Living Colt.**  
Money due when mare is parted with or removed from county.

Carroll Preston has been before the public long enough to need no extended description. He has proven an exceptional breeder of high class horses both for saddle and harness purposes. He is in fine shape this season, and you will make no mistake in breeding to this great animal.

AS we told you, a Low Cloverleaf gives the manure a double beating. It also spreads manure eight feet wide or better. But the wonderful thing is that it does this from a box only 45 inches wide. The spreader itself is so narrow that it can be driven into any modern barn and loaded from the gutters. Only one handling of the manure for the quickest, best job of spreading you ever did. How does that sound to you?

## REAL STORY OF THE JAMES GANG

To Be Told by Jim Cummins, Surviving Member, in Book to Be Published After His Death.

The recent death of Cole Younger, one of the last surviving members of the famous Jesse James gang, caused the Kansas City Star to interview James Cummins, said to now be the surviving member of the famous band of outlaws who terrorized the middle west just after the civil war. Cummins, though said in the Kansas City paper to have been born in Missouri, is said by others to have come from Rockcastle county, Kentucky, or that his father came from there. He is writing a book of his reminiscences which will be published after his death. The Kansas City paper had the following about the aged bandit:

Cummins is almost the last of the original Jesse James gang. Cummins is 69 years old and lives in the Confederate home in Higginsville, Mo. Cummins was born in the same neighborhood with Jesse and Frank James in Clay county, Missouri, and they were playmates. He and Jesse enlisted together in the war under the black flag of Bill Anderson, the land pirate of the border, who used to hang festoons of human ears on his bridle rein. Every time Bill Anderson killed a man he cut off his ears and hung them to his horse's bridle. He killed more than a dozen in one day in Lawrence and more than a dozen in Centralia.

Cummins and Jesse James were rough riders together through the border wars and were bandits together for fifteen years thereafter. Cummins was the bearcat of the James gang. He could shoot straighter and ride faster than the other boys. Jesse James used to call Cummins the "old fox," he was so sly. Jesse said he was the best woodsman he ever knew, and Frank James said not long before he died:

"Jim Cummins had better wood sense than any other man I ever knew. He was the best man I ever knew to guide me through an unknown country, just by sense of direction. You couldn't lose him. He would find his way anywhere." Cummins never knew fear. His nerve was somewhat marvelous.

It is not known how many robberies he was in nor how many men he killed or helped kill, but he was probably in nearly all the jobs pulled off by the James gang. His shrewdness is shown in the fact that, although a reward of \$5,000 simply for his arrest hung over his head for years and hundreds of detectives hunted for him far and near, he was never arrested, was never behind the bars and now spending the closing years of his turbulent life in the peace and quietude of the Confederate home and is writing a book.

"Why should Jim Cummins write a book?"

"That's just what I asked him, and here is the answer."

"Not for money, because this book of mine is not going to be seen by anyone until after I am dead. I am writing it so that the truth about James gang may be known at last. The truth has never been told. I am going to tell it and tell it all."

"Why don't you tell it all in a book before you die?" That sort of a book would sell, and you would make some money. Don't you need money?"

"Need money? Look at my clothes, mister. I'm shabby. Yes, I need money, need it bad, but I don't tell the truth while I'm living, they'd lock me up if I did. Why, I know things that I could get \$5,000 today for telling, but I wouldn't be healthy for me if I told. When I am dead they can't hurt me."

And so, pray as you may, you can't get Jim to tell that he was ever in any particular robbery or in any particular killing, but he will tell you about fleeing across the country with four or five thousand dollars in his saddle bags as his share of the loot, and how he lived high in New York and Washington between robberies, but no particulars that would give the law a hold on him.

"Another reason, why I want to write the book," he tells you, "I want to tear the mask off of Frank and Jesse James. Posing as heroes. Bah! They were just common, ordinary robbers, traitors and double crossers. Heroes? Not on your life. I know I rode with them, camped with them, slept with them, went into the jaws of death and the fumes of hell with them. I knew Frank and Jesse James better than any man that ever lived, and I tell you they were just plain robbing crooks, without honor."

"Frank posed for years as the best of the two. After Jesse was killed Frank went on permanent exhibition as a race track starter at fairs, as doorkeeper for the toughest theater in St. Louis, posing as the victim of his brother, Jesse. He let the whole world say and believe that Jesse was the worst of the two. He never opened his mouth to correct it. I knew them and I tell you that he of them were the better of the two."

"I remember one time, after the Glendale train robbery near Kansas City in 1879, Jesse James, Dick Liddell, Bill Ryan and myself crossed the river at Leavenworth and rode down to Nashville and I went out to see Frank James, who lived near there and was kicked because Jesse had brought Bill Ryan with him, and Frank said to me, he said 'Jim, you are welcome to come to my house at any time, but you go over to Nashville and tell Dingus not to bring that damned Irishman here. Frank always called Jesse Dingus.' When I told this to Jesse he became all riled up and threatened to kill Frank. The next day Jesse hired a buggy, and he and his wife and Bill Ryan drove out to Frank's house and spent the day there. Jesse tried in every way that day to pick a quarrel with his brother, Frank, so that he could kill him, but Frank knew what he was after and managed to keep peace. Jesse had murder in his heart

that day and when he saw he couldn't pick a row with Frank he quarreled with Dick Liddell and drew his revolver. He would have killed Dick but I stepped between the two and prevented it. Jesse told me that day that he believed his brother, Frank, wanted him to be killed. Jesse said that if he was dead and out of the way that Frank would then surrender and ask pardon on the plea that Jesse was the real bad man of the two and did most of the robbing and killing. And sure enough not long after Jesse was killed Frank did surrender and did confess that Jesse and I were responsible for most of the robberies.

"Talk about Frank James being a hero. If Frank had been the right kind of a man, he would have avenged the death of his brother. He would never have rested until he had killed Bob and Charley Ford. If they had killed Frank, you bet your life Jesse would have killed them both. But Frank was intent only on saving his own life."

"Now, I'm going to tell the inside facts in my book. I am going to tell the truth about the part Jesse and Frank took in Northfield bank robbery in Minnesota."

Frank and Jesse James, Cole and Jim and Bob Younger, Cecil Miller, Charley Pitts and Bill Caldwell. Frank always denied that he was in that raid and insinuated that I was in it. But I knew who was there.

They all met in Kansas City and planned the raid; they went over to the home of Mrs. Samuel's, the mother of the James boys, who lived on the north side of the city. Northfield, Miller, Pitts and Caldwell were killed outright in the street fight in front of the bank. The others got away and hid in the timber in a creek bottom. They pretended to be fishermen. Cole Younger foraged out and got a couple of horses; but his brother, Bob, wounded and couldn't ride, and Cole wouldn't leave him. Jesse wanted to kill Bob and leave him, as he would hinder their escape. Jesse and Cole quarreled and Jesse and Frank took the horses and rode off. They barely did get away across a bridge as the posse came up which captured the Youngers.

Frank and Jesse had a hard time getting away. Once they rode for miles in the covered wagon of a sewing machine man.

They returned home by a roundabout way that took them out to Arizona and New Mexico. They nearly starved and ate raw rabbit and roots. They finally got back to Clay county and from there they got away to Kentucky. Tyler Burns drove Frank James' wife in a covered wagon and Frank rode on horseback.

When they came to a town, Burns would drive through and Frank would ride around it.

Jesse James and wife went in the same way, and the wagon being driven by Johnnie Samuels. After they got down in southern Missouri the two parties joined company, but Frank and Jesse had a violent quarrel and separated.

"After Jesse James and I had been together for years, facing death together, we fell out, and I tried to kill him and he tried to kill me. Our quarrel was over the murder of my friend, Ed. Miller. Miller was with Jesse James in the Glendale train robbery in Jackson county in 1879. At that time Frank James was living under the name of Ben Woodson on the Pike road three miles from Nashville, Tenn."

Jesse James' wife was boarding in Nashville. Jesse got a lot of money in the Glendale robbery and Jesse and Ed. Miller bought a race horse, "Jim Malone," and took him around to different race meets, but went broke on him. Meantime Tucker Basham had been arrested for the Glendale robbery, had turned state's evidence and told that I, Jesse, Ed. Miller, Bill Ryan and Dick Liddell were in that robbery. Of course he lied about me. I was not in it. Neither was Frank James."

After Jesse and Ed. Miller went broke on their race horse, they

started back to Missouri.

Near Norborne, Mo., Jesse James killed Ed. Miller and took his watch and horse and rode on to Charley Ford's in Ray county, and then on to the home of Mose Miller, Ed. Miller's brother. He told him Ed. was sick and likely to die and Jesse presented to Mose a forged order for \$375 signed by Ed. Miller, and Mose paid Jesse the money. Jesse disposed of the watch. The body of Ed. Miller was buried by Sam Burton, who found it badly decomposed.

"That's the kind of a hero Jesse James was, murdering his comrade and robbing his body. I learned finally that Jesse had killed Ed. Miller and decided to kill Jesse. I went to a house where he was stopping in Edsville, Ky., and asked Jesse to come out and look at a horse. I intended to kill him as he came through the door, but he smelled a rat and wouldn't come. He said he would see the horse in the morning. I told him he had killed Ed. Miller and that I intended to let Miller's friends in Missouri know all about it. I did that and Jesse James did not live long afterward. I never spoke to Jesse after that."

I was his enemy and he was mine. He tried to get me killed and came to the home of William Ford, my brother-in-law, to kill me himself. I was offered \$5,000 in cash by the authorities if I would give information that would lead to the capture of Jesse James and I could have got the money. But one man can put the brand of traitor on me. I wouldn't have surrendered him for a million dollars. I despise and hate the way he was killed, but still it was as much of a traitor as Bob Ford and he got what he deserved for killing Ed. Miller. But still I think that Jesse James was more honorable than Frank James at that. After Jesse's death all the robberies were laid at his door by Frank and his friends.

In my book I'll tell who killed Wichter, the Pinkerton detective, and who murdered Westfall, the Rock Island conductor, and McMillan, the old man, in the train robbery at Winston, Mo., 1881.

I say Frank James was in that robbery. It was done by Frank and Jesse James, Wood and Clarence Hite and Dick Liddell. I was working at that time in the harvest field at Gorham Russell, Kan., for \$1.50 a day. I was there when Jesse James was killed, and opened a shoe store and stayed there until I came back to Missouri and surrendered.

## A Hint To Mothers Of Growing Children

### A MILD LAXATIVE AT REGULAR INTERVALS WILL PREVENT CONSTIPATION.

A vital point upon which all schools of medicine seem to agree is that normal regularity of the bowels is an essential to good health. The importance of this is impressed particularly on mothers of growing children.

A very valuable remedy that should be kept in every home for use as occasion arises is Dr. Caldwell's Syrup Pepsin, a compound of simple laxative herbs that has been prescribed by Dr. W. B. Caldwell, of Monticello, Ill. for more than twenty-five years, and which can now be obtained in any well stocked drug store for fifty cents a bottle.

In a recent letter to Dr. Caldwell, Mrs. H. C. Turner, 844 Main St., Buffalo, N. Y., says, "I bought a bottle of Dr. Caldwell's Syrup Pepsin for my baby, Roland Lee Turner and find it works just like you said it

ROLAND LEE TURNER

would. It is fine for the stomach and bowels."

A bottle of Dr. Caldwell's Syrup Pepsin should be in every home. A trial bottle, free of charge, can be obtained by writing to Dr. W. B. Caldwell, 454 Washington St., Monticello, Ill.

The McKinney W. C. T. This was a "Mother's Meeting" and a program of unusual interest was presided over by Mrs. E. C. Reynolds. Mrs. Childress, of the Hustonville Union gave a most instructive talk on Training of Children. Mrs. R. S. Scudder read an interesting and helpful paper on "Sacredness of Childhood." Mrs. C. L. Pile also read a splendid paper on "Don'ts for Parents." Appropriate hymns were sung. Much credit is due our efficient president for her faithfulness and enthusiasm shown in this great work of redeeming our State from the liquor traffic, and for her genuine hospitality on this occasion, our "Mother's Meeting." Mrs. Childress and Miss Martha Tucker, of the Hustonville Union, were welcome visitors. At the conclusion of the service an enjoyable repast of sherbet and cake was served.—Mrs. Sarah Dayton, Supt. "I am a large breeder of fancy poultry and show birds. I have been using Bourbon Poultry Cure for the past seven years and never lose a chicken with disease, and I attribute my success to the use of this wonderful remedy. Have cured several bad cases of roup and other infectious disease with it, therefore I speak from experience when I say it cures. I heartily recommend it to my poultry raising friends in this and adjoining counties, as the greatest remedy I have ever used for the cure and prevention of poultry diseases." Jno. O.
